Application Announcement:
Selection of Students for an ERASMUS-LLP Project

The Munich University of Applied Sciences is the coordinator of a consortium of 6 EU-Universities within the frame of an ERASMUS Live Long Learning (LLP) Project http://www.cs.hm.edu/studienangebote/international/erasmus_ip/index.de.html

72 students, that means 12 of each partner university, will participate in an Intensive Programme (IP) entitled:

“Secure WEB Applications: Best Practices for Protection & Development”

within the time period

6 to 19 May 2012 in Munich

The students will learn and apply in practice the principles recommended for protecting the networks and for designing, developing, and implementing secure WEB applications. All labs will provide the students with real network platform environment where the networks and the applications containing vulnerabilities can be attacked using different methods and techniques presented during the lectures. A well diversified social and cultural programme will accompany the technical activities.

Credits: The home university will grant 5 ECTS credits to each student who successfully completes the IP. A certification of completion will be issued by the Coordinator, the Munich University of Applied Sciences.

Registration: The students who are eligible to apply for the program have to have a good knowledge of English and completed the following classes:
- Computer networks (and preferably network management),
- Data bases,
- Java programming (and preferably software engineering).

Application: Please write the application to Prof. Klaus Köhler - E-Mail: Koehler@hm.edu indicating:
- Name, matriculation no., E-Mail, Phone, Semester,
- Grades of the exams for the courses indicated above as well as a proof of English knowledge (grades, courses in English, semester abroad in an English-speaking country, etc.)

Deadline for Application: Monday, 28th of November 2011, 3 p.m.

Final Selection: The eligible applicants will be invited to an interview on Wednesday, 30th of November 2011 for establishing the final selection. The selected students will get the detailed information about the seminar and about the preliminary preparation for it.

Details of the seminar will be presented on Wednesday, 16th of November 2011, 17:00 in R003.016.
