PRIMUSS Manual
for Courses in English Online Selection / Lottery
General information

The places in the courses might be limited and will be allocated by an online lottery.

You can select your desired courses anytime while the online selection is open. During this time you can also change your selection.

The lottery does not guarantee your place in a course. You might lose your place if you do not show up to the first session OR if the course is overbooked OR if you do not meet all requirements. Note: This includes the colour code! Do not rely on too many yellow courses of other departments, you might lose the places even after the lottery, since PRIMUSS cannot apply the colour code.

Preparation

Have a look at the online course list. Read the course descriptions to check if you meet the requirements. Pay attention to the course categories green/yellow/red!

Make a list of the courses that you like. Keep your learning agreement in mind.

Check the timetable to see when those courses take place. Course times might overlap! Make up your own timetable.

- Do not rely on too many yellow courses of other departments, you might lose the places even after the lottery, since PRIMUSS cannot apply the colour code.
