2012-2013

STUDENT EXCHANGE AND STUDY ABROAD PROGRAMS

For International Students

A gateway to explore the world while studying in Vietnam
Welcome to International University

Established in 2003 as the first public university in Viet Nam with 100% curriculum taught in English, IU strives toward three objectives: to provide an international quality education, to conduct and apply innovative research, and to play a key role in the sustainable development of our society and country.

With our training program, IU guarantees to provide students with a comprehensive education which combines not only academic knowledge, but also the skills and ideas for scientific research, and the confidence to cope with new global challenges.

For our research development, IU spends annually a large portion of its budget investing in scientific research and building modern laboratories.

Our university has also mandated official policies and specific regulations toward research activities to develop our university as one fundamentally oriented in science and research.

In carrying out this mission, our university focuses on creating a conductive environment to encourage an active learning experience where students have the opportunity to engage in deductive and critical thinking to further develop their practical problem solving skills.

IU provides both Vietnamese and international students with a sustainable education and training through many choices of IU’s bachelor and master degree programs or bachelor twinning programs that cooperate with other universities worldwide or IU’s students exchange and study abroad programs. Among these partner universities are some top ranked institutions in the US, UK, Australia and New Zealand giving our students a large number of choices of prestigious universities to earn their degrees from.

Please come and personally contribute by earning an opportunity to work or study at IU. You will find here a wonderful professional and academic atmosphere. Everyone here is devoting their time and energy to develop our young university into an integrated and respected member among the world’s finest academic institutions.

Professor Ho Thanh Phong
Rector
General information

Fast facts

- Established: 2003
- The first public English-speaking university of Vietnam with 100% courses taught in English.
- Schools & Departments: 10
- Total number of students enrolled: 3,500
- Study levels: Undergraduate and Graduate (Master) degrees
- Fields of Study: 11 Undergraduate and 4 Graduate programs
- Number of Faculty: 223 total, with 135 holding Ph.Ds
- Number of Staff: 149
- Percentage of foreign lecturers: 40%
- Campus location: Ho Chi Minh City, Vietnam

ACADEMIC YEAR PERIOD
- Semester 1: September – January
- Semester 2: January – June
- Summer Semester: June – August

ABOUT US

International University (IU) is one of six member universities of Vietnam National University of Ho Chi Minh city. As an interdisciplinary university, it is the first public university in Vietnam that uses English as the primary language in teaching and researching.

Schools and Departments

- School of Biotechnology
- School of Business
- School of Computer Science and Engineering
- School of Electrical Engineering
- Department of Biomedical Engineering
- Department of Civil Engineering
- Department of Industrial and Systems Engineering
- Department of English
- Department of Mathematics
- Department of Physics

Academics

All training programs offered by IU are designed in line with ABET, ACCSB standards and programs from reputable partner universities in the United States and several other English-speaking countries. Following the present educational trend, the university is administered under the credit-based education system in order to facilitate students learning and IU cooperation with several top universities in the United States, Europe, and Asia.

Type of degrees:

- IU-Degree programs: are awarded by IU for undergraduate and graduate students who complete learning programs in Vietnam.

- Cooperative training programs: undergraduate students who successfully complete the first stage (two first years) at IU and meet IELTS or TOEFL score as required will be transferred to partner universities to finish the second stage (two final years). Degrees of these programs are awarded by the following partner universities:

1. Rutgers University, USA
2. Suny Binghamton University, USA
3. The University of Houston, USA
4. The University of Nottingham, UK
5. University of West of England, UK
6. The University of New South Wales, Australia
7. Auckland University of Technology, New Zealand
8. The University of Auckland, New Zealand
9. Asian Institute of Technology (AIT)

2
Academic programs

The School of Biotechnology offers the undergraduate and graduate programs as follows:

1. Undergraduate programs

1.1 BSc degree in Biotechnology in one of five tracks based on elective courses and graduation thesis:
   - Molecular Biotechnology
   - Biomedical Biotechnology
   - Industrial Biotechnology
   - Marine Biotechnology and Environment
   - Pharmaceutical Biotechnology

1.2 BSc degree in Food Technology

1.3 BSc degree in Aquatic Resource

Currently, the School of Biotechnology is operating twinning programs with the University of Nottingham (UK or Malaysian campus) and University of West of England (UK) and will expand this model with universities in the US and Australia.

2. Graduate program

MSc degree in Biotechnology program is the research study with majors in Biomedical Biotechnology, Molecular Biotechnology, Agricultural Biotechnology and Industrial Biotechnology. Duration of the study is 2 years (45 credits). The curriculum has been developed based on the credit system, ensuring the possibility of higher studies to PhD degree in other educational institutions abroad. Students must complete 15 credits of 2 required courses and 3 elective courses and publish their research in well-known scientific journals prior to the defense of their graduation thesis.

Research

- Food Technology: quality control and improvement, traceability, advanced processing technologies for agricultural and food products.
- Aquatic Resource Management: effects of climate change on aquatic ecosystems and bio-resources, enhancement and restoration of valuable natural stocks, aquatic environment monitoring and management, advanced aquaculture technologies with focus on feed production and system design.

Our staff and facilities

Faculty members and staff of the school are experienced in teaching and doing research, and have been trained at well-known universities in USA (Cornell University, University of Michigan, University of Utah), UK (Nottingham University, University of West of England, Open University), Australia (University of New South Wales, Griffith University), Japan (Hiroshima University, Osaka Prefecture University) and the equivalents in Europe, India, Singapore and Korea. Teaching and research performance of our faculty members and staff have been recognized by a number of international and national awards.

The laboratory system includes seven modern labs: Fundamental Biotech, Molecular Biomedicine, Applied Biochemistry, Food Technology, Applied Hydrobiology, Computational Biology and Marine Biotech that can meet the requirements for quality training and basic research. Through strong collaborations with national and international partners, we implement advanced research and continue to expand our research facilities.

Academic programs

The School of Business offers the undergraduate and graduate programs as follows:

1. Undergraduate programs

1.1 Business Administration major consists of four specializations including:
- Business Management
- Hospitality Management
- International Business
- Marketing

1.2 Finance and Banking major consists of one specialization including:
- Banks and Financial Investment

2. Graduate program

The Master of Business Administration curriculum of International University is designed on credit basis and tentatively will last 1.5 – 2 years. The program will provide students with business administration core knowledge such as operations (production/service), financial, marketing and human resources management, as well as leadership and decision making skills, and 3 areas of specialization:
- International Business
- Marketing
- Finance

The academic programs are delivered by local and international lecturers who have obtained degrees from prestigious universities around the world. The faculties designed academic programs in accordance with those of well-known international universities such as University of Houston (US), University of New South Wales (Australia), University of Nottingham (UK), and others.

They use textbooks from popular world publishers in both undergraduate and graduate programs. Students have the opportunity to study in a dynamic environment, with advanced training methods and comfortable facilities, including a modern business simulation lab.

Career opportunities

After graduation, the students of the School of Business can begin with positions of as management trainees in foreign businesses, multinational companies, large domestic corporations or as specialists in the areas of their own expertise such as finance, accounting, banking, marketing, securities trading, market research, production management, quality management, and logistics. Recent graduates have secured jobs in renowned organizations such as HSBC, ANZ, Unilever, KPMG, Deloitte Touche Tohmatsu, Ernst & Young, Intel, Nokia, AC Nielsen, and Ogilvy & Mather. Graduates can also gradually take over family businesses, or start on their own by forming joint stock companies to realize their business ideas and strategies.

Research orientation

To improve research activities to better serve training objectives as well as provide more efficient business assistance, the school has set its sights on the following:

- Research customer behaviors, market research, develop marketing strategies for several potential products and companies of Ho Chi Minh City.
- Research on issues related to sources of capital, capital structure and performance of domestic companies, activities of the stock exchange and funds, opportunities to implement international standards in accounting and finance.
- Opportunities, risks and solutions for local and foreign firms in the context of globalization, cooperation and competition, cross-culture management, and the environment of MNCs.
- Evaluation of human resource needs as well as HRM methods in small and medium-sized enterprises and large corporations.
- Application of models of operations management, supply chain management, logistics for domestic companies.

**Academic Programs**

The School of Computer Science and Engineering provides:

1. **Bachelor degrees in:**
   1.1 Computer Engineering
   1.2 Computer Science

The undergraduate programs of the school are designed to be compatible with ones of prestigious overseas universities, such as Rutgers University (USA), the University of Nottingham (UK), the University of New South Wales (Australia). Lectures are taught by highly qualified professors and lecturers. English textbooks are published from world-wide publishers and they are currently used by several top universities. Faculties apply modern and active learning methods, combining of theoretical lecturing, lab practicing with newest technologies and applying knowledge to solve practical problems. Students study in a modern, well-equipped, and energetic learning environment.

2. **Master degree in:** Information Technology Management

**Career opportunity**

After gaining the degree, graduates have a great chance to find good positions with high salaries in top Vietnamese or global companies. The last groups of graduates have had excellent jobs in well-known IT companies such as Renesas, FPT, CSC, GCS, TMA; or banks and enterprises such as BIDV and AAA. In addition, several graduates are pursuing master's and doctoral degrees with full or partial scholarship in top overseas universities in USA, UK, and Australia.

**Research**

Research in the School is focused on improving teaching quality and collaboration with industry. Some research directions are listed as follows:

- Data Mining and Business Intelligence
- Software Engineering
- Task Modeling and Industrial Document Management
- Network and System Security
- Digital Communication

Good students can take part in research projects to gain valuable experience in solving difficult problems.

Academic Programs

The School of Electrical Engineering offers the undergraduate and graduate programs as the followings:

1. Undergraduate programs

Bachelor of Engineering in Electronics and Telecommunications consists of four specializations including:
   - Microelectronics, IC Design and Embedded Systems
   - Communications
   - RF Design
   - Signal Processing

2. Graduate program

Master of Engineering in Electronics is divided into 2 categories: coursework and research. The program includes following specializations:
   - Microelectronics, IC Design and Embedded Systems
   - Communications
   - RF Design
   - Signal Processing
   - Biomedical Sensors and Devices

Career opportunity

Every graduated engineer from our university will have an opportunity to work in an environment which is directly or indirectly related to the electrical engineering field. Thanks to their advanced proficiency in the English language, IU graduates will be a perfect match for foreign companies currently investing in the HCM City metropolitan area. In addition, all graduated engineers from IU can seek employment from various areas such as: communications, airlines, entertaining industries, IC design, broadcasting, biomedical instruments, civil electronics, information technology, multimedia, automation, national defense, traffic and transportation, etc.

Research

The areas of research at School of Electrical Engineering include:
- Computational Electromagnetics
- IC design
- Design & manufacture of microwave applications;
- Design & manufacture of micro-electromechanical systems (MEMS)
- Image processing and wavelet transforms with applications in automatic recognition systems
  - Wireless sensor networks
  - Biomedical instrumentations
  - FPGA and embedded systems for civil and industrial applications

Further Information

School of Electrical Engineering, Room 609
Tel: +84.8.37244270 - Ext 3231
Fax: +84.8.37244271
Website: http://cse.hcmiu.edu.vn/ee
**Academic Program**

Bachelor of Biomedical Engineering program is designed according to the ABET's guidelines and to the needs of Vietnam, to foster innovation, creativity, team building, competence and confidence to spur research and leadership.

**Career opportunity**

- Clinical engineers who are well versed in the principles and operations of medical equipment used in the hospitals to help physicians in clinical treatments, and in advanced research,
- Entrepreneurs capable of developing and putting on the market new medical devices, managing healthcare establishments, and establishing startup companies,
- Researchers in scientific institutions, or science and technology educators.

**Research**

We concentrate on developing new medical devices for out-patients, suitable for Vietnam and developing countries. Other topics: *Near Infra-Red Spectroscopy* to investigate hemodynamic activities of the brain and muscles, *Telemedicine and E-hospital* to globalize the medical information exchange and diagnostics, *Biomechanics* and *Regenerative Medicine* to create new biomaterials and organs from stem cells. We also focus on the technology transfer to the industry and other private sectors.

**Further Information**

Academic Program

Bachelor of Civil Engineering program is designed by criteria of ABET Inc. (the Accreditation Board for Engineering and Technology) and the country’s needs to promote the creative spirit, teamwork, and ability to self-studying in scientific research and technical leadership.

Career opportunity

As a graduate, students can work in the domestic and foreign construction company, transportation, irrigation, specialized research institutes, the project management, universities, colleges, vocational schools, etc. The opportunity to work in the construction industry is very large.

Research

Department of Civil Engineering focuses on the solutions for using equipment for low and high buildings to improve its ability to reduce the structure’s dynamic response with different loads. We also focus on researching and using the advanced computing in the world for designing the projects. In addition, the department concentrates on researching and technology transfer to businesses.

Further Information

DEPARTMENT OF INDUSTRIAL AND SYSTEMS ENGINEERING

Academic Program
The undergraduate program of Industrial and Systems Engineering will provide students with theoretical knowledge, and practice on designing, operating, improving and optimizing production and service systems.

Career opportunity
After graduated, students will be able to:
- Pursue higher education by successfully competing for prestigious scholarships to enter world class programs abroad, or
- Become outstanding industrial and systems engineers who can find jobs in Production, Material and Inventory, Logistics and Supply Chain, Quality Management, Planning & Scheduling, Design & Layout fields and in a number of organizations/agencies:
  - Manufacturing fields: Foreign companies, state-owned and private enterprises;
  - Service fields: Hospital, hotel, airport, retail services and distribution;
  - Research & Development: Universities, training and research centers;
  - Governmental organizations (national and provincial) such as Ministry/Department of Science and Technology, Department of Transport and Communication;
  - Project management units of national and international projects related to industrial fields.

Research
- Optimization for Scheduling and Sequencing for service and manufacturing systems: Establishing and solving scheduling & sequencing problems.
- Logistics & Supply Chain Management: Transportation problems, Supply chain design problems, Supply chain optimization problems.
- Simulation and Modeling: Simulation and Modeling complicated service and manufacturing systems using discrete simulation techniques; Integrating simulation techniques and optimization techniques; Simulation of transportation systems, service systems and supermarkets.

Further Information
Department of Industrial and Systems Engineering, Room 508

Fax: +84.8.372444271
Website: http://csc.hcmiu.edu.vn/ise
The **Student Exchange** program is a tuition fee waiver program for students whose institutions have a student exchange agreement with IU. If you wish to apply for IU’s Student Exchange program, please contact the Student Exchange office at your university.

The **Study Abroad** program is a regular, full tuition program. If your home university is not an IU partner, or if you are not selected for the exchange program, you can still spend one or two semesters at IU through the Study Abroad program.

IU’s Student Exchange and Study Abroad Programs offer international students an opportunity to explore their academic interests and cross-cultural understanding by studying for one or two semesters at IU to earn credit toward their home university degrees.

Students enrolled in these programs will not be awarded a degree from IU; but they can transfer credits to their home university upon completion of their studies in Vietnam.

IU has an extensive range of student exchange partnerships with prestigious institutions around the world and with over 300 higher education institutions in 50 countries under the agreement with the International Student Exchange Program (ISEP).

### Our Partner Institutions

- **Austria**: The Management Center Innsbruck (MCI)
- **Australia**: The University of Newcastle
- **Canada**: Thompson Rivers University
- **Germany**: ESB Business School, Reutlingen University
  - Munich University of Applied Sciences
- **Japan**: Otaru University of Commerce
- **Korea**: The University of Seoul
- **ISEP**: 300 Institutions listed in appendix
ENTRY REQUIREMENTS
To be considered for the Student Exchange and Study Abroad Programs, undergraduate and graduate applicants must:

- Complete and submit the application form with supporting documentation and course selection.
- Complete at least one year of full-time study
- Have achieved the equivalent of a cumulative GPA of 2.5 on a 4.0 scale in the USA or equivalent;
- Have a letter of nomination from the home institution as required for exchange students.

ENGLISH PROFICIENCY
No English proficiency assessment is required for students who live in an English speaking country or study in a tertiary institution where the language of instruction is English.

If you are not from an English speaking country or if the language of instruction at your institution is not English, the following requirements apply:

- IELTS minimum overall band score of 6.0 (no sub-score bellow 5.5);
- TOEFL (PBT) minimum score of 550; or
- TOEFL (CBT) minimum score of 213; or
- TOEFL (iBT) minimum score of 79 (no sub-score bellow 19);

ISEP's Language Proficiency Report is accepted for students from ISEP-Exchange and ISEP-Direct programs.

Please note that IELTS &TOEFL test result are valid for 2 years.

COURSE SELECTION
Students are responsible for meeting their home institution's academic advisor when selecting programs or courses for study abroad. Advisors can assist students in selecting programs or courses that might meet students' academic needs.

Once an exchange student is officially admitted to IU, the student's file is forwarded to an IU academic advisor who will assist the exchange student with course registration. If there is an issue with the student's courses registration or class schedule, the student will be notified by email.

CREDIT REQUIREMENTS
All Exchange and Study Abroad students must be enrolled in a minimum course load of 12 credit points (approximate 4 courses) and no more than 24 credit points per semester (each credit is considered to equate to approximately 15 hours, including all forms of teacher contact and instruction).

OFFICIAL TRANSCRIPTS
Two copies of the official transcript will be sent directly to your home university within four weeks after the end of the final examination period.

STUDENT EXCHANGE PROGRAM

➔ To be an exchange student, you must be nominated by your home institution (you can contact your home institution's Student Exchange office to get advice on appropriate procedures).

➔ Complete the Student Exchange application form.

➔ Attach all required documents, as outlined in the application form. All documents should be certified and translated into English:
   1. An official transcript of your student record;
   2. An evidence of English Proficiency;
   3. A copy of passport;
   4. A letter of nomination from your home institution.

➔ Submit your application to the Student Exchange office at your home institution.

➔ Once your home institution confirms that you are selected for the program, you will be assisted by IU’s Student Exchange and Study Abroad staff.

Approved applicants will receive an official notification package from IU's Student Exchange and Study Abroad Program – International Relations Office, including:

➔ Acceptance letter from the Student Exchange or Study Abroad Program.

➔ Academic schedule.

Please bring this official notification package to the Vietnamese Embassy in your home country to obtain a student visa.

APPLICATION DEADLINES

Applications should arrive at IU by the following dates:

31 May for Semester 1 (September – January)
31 October for Semester 2 (January – June)
28 February for Summer semester (June – August)
Finding the best living accommodations is crucial when studying abroad. The Student Exchange and Study Abroad staff can provide you with a list of accommodation options, which will be sent to you by email prior to your departure.

Please note that if you are ISEP-Exchange students, your accommodation and meals will be covered by IU according to our agreement.

**LIVING COST**

- For Exchange students, you should expect to pay at least USD 3,000 (or EUR 2,386) per semester for living costs in Vietnam, including housing, meals, textbooks, additional materials, student's activities and other personal expenses.

- For ISEP-Exchange students (exclusive of ISEP-Direct student), room and board costs will be waived by IU according to the agreement with ISEP.
Upon acceptance to the program, you will be provided an account that gives you access to university's e-mail, MyIU website (including course registration, time table, exam schedule, student scores) and blackboard. Computing facilities at IU provide free online access.

IU also offers an airport transfer service for new international students at a reasonable rate. You will be picked up at Tan Son Nhat International Airport and transported directly to your accommodation destination. You have to complete the Airport Pick-Up Request form at least 3 working-days before your arrival.

The Orientation Program will provide practical advice on safety, student health care, student union activities and study preparation.
**Ho Chi Minh City and Vietnam Sight-seeing Attractions**

During your time in Vietnam, we encourage you to get involved in extra curricular activities that will expand your cross-cultural learning beyond the classroom. Take this unique opportunity to travel in Vietnam and the surrounding region to make the most of your study experience at International University.

**CLIMATE**

Ho Chi Minh City has a tropical climate with rainy summers and mild winters. Average temperatures:

- **Sunny** (October to April) : 26°C – 33°C ~ (79°F – 91°F)
- **Rainy** (May to September) : 24°C – 32°C ~ (75°F – 89°F)

Note: Minimum full-time enrollment: 12 credits per semester; Maximum full-time enrollment: 24 credits per semester

8. Document Checklist

1. Complete and submit the application form and course selection. Make sure to fill in all the blanks.
2. Attach an official letter of nomination from home institution (exchange students only)
3. Attach an official transcript of academic records in English.
4. Enclose certified copies of your English language qualification or details of English proficiency.
5. Enclose a copy of your passport identification page.

9. Declaration

I declare that the information I have supplied in this application is correct and complete. I understand that the university may vary or cancel any decision it makes if the information I have supplied is found to be incorrect or incomplete. I recognize that it is my responsibility to provide all documentary evidence requested in this application. I understand that I am responsible for the prompt payment of any fees to the program to which I am applying for admission.

I agree to comply with the rules governing admission and enrolment of the university.

Signature    _____________________________    Date    ____________

# AIRPORT PICK UP REQUEST FORM

## 1. Personal Details (as appeared on your passport)

<table>
<thead>
<tr>
<th>Last name:</th>
<th>First name:</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Gender:</th>
<th>Nationality:</th>
</tr>
</thead>
<tbody>
<tr>
<td>Male</td>
<td></td>
</tr>
<tr>
<td>Female</td>
<td></td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Date of birth (dd/mm/yy):</th>
<th>Place of birth (city/state):</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Tel:</th>
<th>(include Country code + Area code)</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Mobile:</th>
<th>(include Country code + Area code)</th>
</tr>
