The best of both worlds … That’s our difference
“Generously supported by the Jordanian Government, the Federal Ministry of Educational and Research of the Federal Republic of Germany, and the German Academic Exchange Service (DAAD)”
Welcome to the most unique University in Jordan!

Since we opened our doors in 2005, German Jordanian University (GJU) has strived to become the higher education leader in Jordan and the Middle East region by offering non-traditional programs of study and a model of education that is based on the best of the German applied sciences universities.

As a student of GJU your studies are equally divided between theory and practice, which means that you will receive an educational that is unmatched in the region. All of our degree programs have been specifically designed to prepare you to meet the needs of industry now and in the future, and we accomplish this by maintaining close partnership with an ever-growing number of national and international enterprises who provide their expertise and guidance in the development of each study program.

As you read through this view book you will see many of the differences that make German Jordanian University unique, but I would like to point out one difference that cannot be shown on a printed page. That difference is our sense of community! GJU is made up of many different kinds of people, all of whom grow together personally and professionally every day. And as we evolve, so will our students, faculty and staff. By the time we make the permanent move to our campus in Madaba we expect to have an equal mix of national and international students, as well as faculty experts from around the global; all of whom will with them more and more differences that we can celebrate.

As you join our educational community I invite you not only to work towards your degree, but to challenge yourself to explore new areas of learning, and commit yourself to working towards a better, more prosperous world. To help you along this path, we at the GJU pledge to provide you with the quality instruction second to none. Myself. The staff, the faculty and the current students at GJU are looking forward to seeing you among us, and assisting you in fulfilling you educational and personal goals.

Prof. Labib Khadra, President of the University
The German Jordanian University (GJU) was established by a Royal Decree in accordance with a Memorandum of Understanding reached between the Ministry of Higher Education and Scientific Research of the Hashemite Kingdom of Jordan, and the Federal Ministry of Education and Research of the Federal Republic of Germany in 2005.

The university follows the German Fachhochschule model (Universities of Applied Sciences) in teaching its undergraduate programs; these are characterized by their focus on putting knowledge into practice and on promoting knowledge transfer.

Since its establishment, GJU is committed to an outstanding educational experience for its students; this is achieved through extensive personal contact among faculty, staff and students in and out of the classroom. Faculty and students engage in basic and applied research, public service, economic development, and learning-oriented partnerships in an environment that encourages freedom of expression while valuing diversity.

GJU takes pride in its student-centered environment for learning and believes that quality education is founded upon close association between faculty and students.
You have big dreams! You want to be successful! You want a career that will inspire you, challenge you, and allow you to develop yourself personally and professionally!

And you may be thinking that in order to realize your dreams you might have to study abroad… But what if you had the opportunity to study at home…and abroad? GJU is the only University in the Middle East and Gulf regions that offers its students an entire year of work and study in a European country… Giving the best of both worlds!
GJU provides a unique opportunity that combines both East and West, a combination of both studying in Jordan and abroad.

**Non-traditional programs designed by industry...**

Our programs have been designed by industry leaders who tell us what they need; this means that you will learn the skills that are in the highest demand across the globe.

**Unique programs...**

Many graduate and undergraduate programs cannot be found in other Middle Eastern or Gulf region universities. Our aim is to help enrich our country with different but relative and needed skills and experience.

**Theory and practice...**

GJU's educational model is based on the best of the German applied sciences universities. Each course you take will provide an equal mix of theory and practice, ensuring that we give our students the skills they need to succeed.

**Connections with the Industry and internships...**

We don’t just say it...We mean it! All GJU students are required to complete a 160 hour internship in Jordan before the end of their 3rd academic year, which allows you to gain real world experience that will complement your studies.

**Intensive language training...**

Not only do we teach German Language but we also help you use it as a native speaker. Classes are conducted in English which means that you'll be able to enhance your English language proficiency too. With 6 levels of German and English language classes, and also Arabic classes, we ensure that our students graduate being fluent in Arabic, German and English.
Soft skills training...

Intercultural communication skills, team building, presentation and interpersonal skills... these are what today’s employers are looking for in their employees. At GJU we care for our students even after graduation. That is why we focus on developing all the previously mentioned skills in each student.

Small classes... Personal attention

In GJU you are not a number... you are a real person that will be one of the leaders of the future. That’s why you need the best attention and education possible. To ensure that we in GJU believe in small classes, 30 students maximum, which help maintain a tight educational relationship between students and teachers.

International... Industry experienced faculty

We hand pick our faculty from all over the world, and they come bringing years of industry experience with them to ensure that they provide our students with up to date, international and industry related knowledge.

Study in Europe...

In GJU every student is required to spend a semester of his/her 4th academic year studying his/her chosen field at one of our 70+ partner universities in Germany, Finland, Sweden and others... and we are always expanding our network of partner universities to offer you more choice...and more opportunity!

Work in Europe...

Also our students are required to spend a 6 month internship with one of our industry partners, gaining an international perspective and international expertise.
Our current campus is conveniently located in the Al-Jubeiha district of Amman within the royal Scientific Society.

You will find everything you need within a short walking distance of any of our buildings including; restaurants, cafes, copy centers, book stores, supermarkets, mobile telephone shops, automated and full service banking facilities, and much more.

In addition, GJU’s on campus cafeteria receives raves reviews from our students for their range of delectable delights that suits almost any taste...and all at very reasonable prices!

You can expect to take a full advantage of our state-of-the-art labs and computers facilities as part of your program of study, and all of your professors have their doors open if you need assistance.

To help you with your studies and research we offer an excellent multi-media and print library, which includes free access to many of the most of popular e-liberates and online research sites.

You can feel free to use any of the open-access computer labs (soft areas) to help you with your research and studies, or just to browse the ‘net...You will also have the benefit of free wireless internet access while on campus...so you can relax in our garden area, or sit in the cafeteria with your classmates while you surf the "World Wide Web"...
GJU’s permanent campus is located in Mushaqar, Madaba, with an overall area of 162,000 sq meters, including buildings, car park, gardens and outdoor areas. The new campus is home to state of the art labs, computing and research facilities, cultural centers, restaurants, housing facilities, sports centers and shops.
Let’s face it... Choosing a university involves more than just your education, it’s about how you will grow and develop into the successful person you dream of becoming both on the personal and professional level. Your hobbies and interests are of prime importance for us here at GJU. Our Deanship of Students Affairs, our Schools and our Marketing and Communications Department always organize activities based on a wide variety of student interests.

Student clubs, associations and other interests groups are encouraged and supported by GJU because we recognize that you need to do more than just bury your nose in a book! We currently offer a wide range of sports, music and theatre related activities for all students, and our plans for the near future are to expend upon these programs so that we can offer a well-rounded students experience to everyone. Come and experience the GJU community...where students, faculty and staff grow a little more every day...
The next few years of your life are the most important…the decisions you make now will set you on the path to great success…

To help with your decision, here's a list of some of your unique programs,

Water and Environmental Engineering Management (WEEM)…
Water resources and environmental concerns have become a global crisis. As a graduate of the WEEM program at GJU you will apply your expertise and passion in areas such as, sustainable environment solution, waste water treatment, and air pollution initiatives to help solve these issues on a local, regional and international scale.

Pharmaceutical– Chemical Engineering…
Here's your chance to succeed in one top 5 most profitable industries in the world! We've taken two separate but related programs and combined them into the most unique undergraduate course of study in the Middle East and Gulf regions. Why did we do this? Because the pharmaceutical industry told us this is what they need!

Logistics Sciences (LS)…
The only program of its kind in the entire Arab world! Supply chain management is the single biggest concern for the world’s largest corporations…a properly managed supply chain is the key to operational excellence and profit! These companies are offering very lucrative salaries to skilled logisticians…so dream big!

Computer Science, Business Informatics…
We are the first university in the Arab world to offer this unique course that gives you the skills to provide IT solutions to any type of business by fully understanding their needs. You'll learn marketing, financial management and other business courses that will position you as a highly skilled computer scientist with tremendous business acumen!
Choose your Dream...
