As one of Europe’s most attractive tourist destinations Munich has plenty to offer for all tastes and budgets. Historic Munich is over 850 years old and as the capital of Bavaria it is a vibrant center of cultural activities, including numerous theaters, museums, concert halls, and literature and film festivals. It is also home to beautiful parks and grand architecture. The city of Munich and its surroundings offer countless opportunities for sports and leisure activities. Due to its proximity to the Alps, Munich boasts a beautiful natural scenery of lakes, forests and mountains where you can go climbing, hiking or mountain biking – outdoor activities are almost unlimited.

Come and experience Munich yourself! Enjoy life in one of Germany’s most beautiful and safest cities!

Munich and the Surrounding Area...

... are well known for their high standard of living. In Munich, tradition and innovation, industry and science, cultural and tourist attractions all contribute to its outstanding quality of life. In fact, the city of Munich ranks among the top ten most livable cities in the world (source: Mercer Quality of Living Survey 2011). Independent surveys and statistics regularly show Munich’s economic power, the variety of recreational opportunities, its excellent public transport system, and its exceptionally low crime rate.

As one of the leading economic and technical powerhouses in Germany, Munich is a top choice for global companies seeking locations with rich research and development opportunities and strong human capital for their national headquarters, such as Apple and Microsoft, as well as global headquarters like Siemens, BMW, MAN, Linde Group, Allianz, and Munich Re.

These companies frequently turn to Munich University of Applied Sciences for their R&D needs, and our students frequently participate in faculty research to meet the needs of companies in the region. These relationships also facilitate our students’ success in finding internships and placements in industry for independent research projects, which frequently lead to job offers after graduation.
Munich University of Applied Sciences

Munich University of Applied Sciences was founded in 1971. With around 16,500 students, it has become the largest University of Applied Sciences in Bavaria and the second largest in Germany. Our faculty maintains strong relationships with companies and businesses in the Munich region and throughout Germany, as well as with about 140 partner universities around the globe. Munich University of Applied Sciences offers over 50 Bachelor’s and Master’s degree programs in Engineering, Business, Applied Social Sciences and Design.

14 Departments

- Architecture
- Civil Engineering
- Mechanical, Automotive and Aeronautical Engineering
- Electrical Engineering and Information Technology
- Building Services Engineering and Print and Media Technologies
- Precision- and Micro-Engineering Engineering Physics
- Computer Science and Mathematics
- Geo-informatics
- Engineering and Management
- Business Administration
- Applied Social Sciences
- Design
- General and Interdisciplinary Studies
- Tourism

International Activities

Munich University of Applied Sciences maintains partnerships with over 240 universities worldwide. These promote student, faculty and staff exchange as well as joint (research) projects. Furthermore, Munich University of Applied Sciences offers International Degree Courses and Double Degree Programs with a range of partner universities and is an active member in numerous networks and consortia.

Services for international students at Munich University of Applied Sciences include a welcome service, orientation days, language tandems, sightseeing tours, an international club to facilitate contact with German students, assistance obtaining accommodation and health insurance, and advising services through the semester.

For visiting scholars, MUAS provides support in establishing professional contacts at the university and with organisational and administrative issues. Our services include accommodation, welcome services, support for families, German classes and a cultural program.

Courses in English Program

Munich University of Applied Sciences offers over sixty courses held in English in all main subject areas, from Technology and Engineering to Business, Tourism Management, Social Sciences and General Studies. These courses are open to all enrolled students irrespective of their field of study.

Courses in English

Students who successfully complete a minimum number of courses in English can obtain a special Certificate in English certificate. For details on past and current courses offered in English, please visit our web page.

Munich Summer School of Applied Sciences

At the Munich Summer School of Applied Sciences you can make progress towards your degree in the heart of Europe, where Munich’s culture, nightlife, natural beauty and excellent sports facilities provide extensive opportunities outside the classroom.

You can choose from a variety of engineering and economics courses taught in English. Outstanding faculty from our university and our international partners offer courses in automotive, industrial and electrical engineering. Our university’s practice-oriented approach and its faculty’s contacts with local companies ensure application-oriented instruction. Site visits to global companies headquartered in Munich (e.g. BMW) complement classroom instruction.

Credits earned through the Munich Summer School of Applied Sciences are recognised by institutions of higher education worldwide. Field trips to historical sites and cultural activities in Munich and Bavaria as well as an introduction to German language and culture are included in the program.

Applied Research and Development

Applied research and development are conducted at MUAS in close cooperation with partners from industry with the aim of further developing our practice-based degree courses. Thus, our university stands out when compared to conventional research projects pursued at traditional research universities.

A key component of our distinct research agenda is that research at MUAS is intentionally broad-based, comprising the four areas of technology, economy, social sciences, and design. Groups have been established in various research areas, bringing together competencies, ideas, and expertise in research laboratories and research priority groups as well as in specialist centers and affiliated institutes. Munich University of Applied Sciences has been successful in securing public funding at European, national and regional levels.

EXIST – Academy of Excellence for Entrepreneurs

Munich University of Applied Sciences together with Strascheg Center for Entrepreneurship (SCE) have been awarded the title of «EXIST – Academy of Excellence for Entrepreneurs».

«With this award we will be in a position to develop the entrepreneurial culture which already exists at Munich University of Applied Sciences even further and to enhance the awareness that entrepreneurial thinking and action, teaching and research are able to inspire each other.» Vice-President for Research and Development Prof. Dr. Christiane Fritze

The Strascheg Center for Entrepreneurship has been affiliated with MUAS since 2002. It offers students and MUAS alumni support and training in entrepreneurial thinking and activities.
