Internship (m/f/d) in Future digitized Architecture (JR-0007182)

ArianeGroup develops and delivers innovative and competitive solutions for civil and military launchers and has expertise in all aspects of advanced propulsion technologies. ArianeGroup is the prime contractor for the European Ariane 5 and Ariane 6 launcher families and is responsible for both development and the entire production chain through to marketing by its subsidiary Arianespace.

ArianeGroup and its subsidiaries are known worldwide as specialists in equipment and propulsion systems for space applications, with their expertise also benefiting other industries. The Group is a joint venture equally owned by Airbus and Safran and employs nearly 9,000 highly skilled people in France and Germany. Estimated pro forma sales exceed 3 billion euros.

In developing and implementing innovative and competitive solutions for satellite technology, ArianeGroup attaches particular importance to the highest technical standards in order to secure Europe's access to space.

For the department "Industrial Test JIMO6" in Taufkirchen (Munich) we are looking for an Intern (m/f/d) starting 01.09.2022, who would like to support us for 6 months in the area of Future digitized Architecture in full-time (35h/week).

You can benefit from this:

- You will become part of an internationally operating aerospace company
- Exciting projects and a lot of personal responsibility from day one
- Flexible working hours with partial home office option
- Personal contact persons and individual support
- A monthly salary
- There is the possibility to write a Bachelor or Master thesis following the internship

Your Responsibilities:

- You create modern space concepts with a focus on Factory 4.0
- You design and develop new layouts and rendered videos using SketchUp modeling software or similar
- You plan and implement the redesign of room concepts to make them virtually walkable

Your used tools:

- Modeling Software SketchUp or similar
- MS Office Applikation, especially PowerPoint

You have the following qualifications:

- You are a registered student of architecture, interior design or a comparable course of study
- You have spatial and analytical thinking skills
- You ideally have knowledge in the use of SketchUp or similar software
- You feel confident in handling presentations or speeches
- You are a team player, communicative and enjoy working in an international team
- Your strengths include reliability, above-average commitment, as well as an independent, careful and precise way of working
- You are motivated and like to get to the bottom of new things or problems
- Business fluent in German & English (written & spoken)
