THE MUNICH UNIVERSITY OF APPLIED SCIENCES IS A PARTNER IN A CONSORTIUM OF 6 EU-UNIVERSITIES.  
AS SUCH, IT PARTICIPATES IN THE ERASMUS LIVE LONG LEARNING PROGRAMME (LLP).

72 students, that means 12 of each partner university, will be able to participate in the  
upcoming ERASMUS Intensive Programme (IP) entitled:  

**“Secure WEB Applications: Best Practices for Protection & Development”**.

It will take place from  

_April 7 through April 20, 2013 at the University of Glamorgan, Pontypridd (Cardiff/Wales), Great Britain_

The selected students will learn in theory and apply in practice the principles recommended for protecting the networks and for designing, developing, and implementing secure WEB applications. All labs will provide the students with real network platform environment. Here the networks and the applications containing vulnerabilities can be attacked using different methods and techniques presented during the lectures. An attractive, well diversified social and cultural programme will accompany the studying activities.

**Credits:** The home university will grant 5 ECTS credits to each student who successfully completes the IP. A certificate of completion will be issued by the Coordinator, the Munich University of Applied Sciences.

**Costs:** The EU will support the majority of the travel and the subsistence costs. The participating students will be asked to contribute:  
- 10 % of the travelling costs between home and Cardiff,  
- daily travelling cost between the hostel in Cardiff and Pontypridd  
  < 50.00 EUR for accommodation, and  
- 75.00 EUR for the social programme in Wales
