

## Aptitude Test

The Aptitude Test for the Master Business Administration – Business Entrepreneurship and Digital Technology Management will take place on **18<sup>th</sup> July 2017** (subject to change). After verification of the application documents we will send out invitations via e-mail – if you fulfill the formal requirements – with exact time slots. Please reserve the complete day, because of delays.

Applicants must be there in person. There is no possibility of postponing dates! If you do not show up at the appointed time you lose your admission to the aptitude test and you cannot be enrolled for the master's degree programme!

Please bring your bachelor thesis along. Or - if it is not finished yet - a two-paged summary in English. If you did not have to write a thesis please bring another academic paper which you have written.

The aptitude test is conducted by two professors of the Department of Business Administration and lasts about 30 minutes. It can either be a one-to-one interview or a group discussion. Subject of the aptitude test is (a) the content and methodology of the bachelor thesis and (b) the analytical- and problem-solving-skills related to economical and technical aspects and current development.

In spring 2017 we will also publish a reading list for the aptitude test here.
