

SAVE the DATE

December 4-6, 2019

We are pleased to announce that we are holding an International Conference and Transfer Workshop for our collaborative project SUCCESS – *Study Success and Study Opportunities for Refugees* at the Humboldt University in Berlin, Germany, from December 4-6, 2019.

The title of the conference is:

*Digital Approaches to Increasing Equity in Higher Education –
Opening Universities for Refugees*

We will be discussing opportunities for refugees in higher education with a particular focus on the provision of digital education. It will be explored whether existing online educational offers actually facilitate the integration of prospective students with a flight background into their host country – including regular universities – and how refugees can be more successfully integrated into higher education.

We would be delighted to have you participate and kindly ask you to register until April 30th, 2019 by sending us an e-mail to success@uni-mainz.de

We are looking forward to seeing you at our conference in Berlin and to exchanging ideas with you!

Kind regards,
Prof. Dr. Olga Zlatkin-Troitschanskaia and the SUCCESS team
